

# HELLO! INTERESTED IN CUTTING INSTRUCTIONS?

## Are you thinking about your cutting instructions with the Meat Handler?

The Meat Computer Specialists at the Meat Handler Company have the solution for a fast and easy transfer from a manual system.

### HERE'S HOW IT WORKS:

After selecting the Meat Handler® PC as your management package, you can choose from the vast library of forms we have available or just send us the forms you are using now and our staff will duplicate your current forms as closely as possible.

### The cutting instructions in the Meat Handler are:

- 1) *Convenient (at your fingertips)*
- 2) *Labor saving (forget digging through the files)*
- 3) *Impressive (customers see the official list and cherish it—show their friends and hang it on their home freezer)*

### HERE'S WHAT YOU GET:

- Repeat business!
- Up to five species can be stored and referenced later. Choose screen for beef, pork, sheep, venison, veal, wild game, or catering and the cutting instructions are assigned to your needs!
- Allows multiple instructions for each species for a given customer (summer and winter instructions)
- Single or double space the instructions
- Promotional message can be put on cutting instructions—sell more!
- Code customers for targeted mailing such as fruit sale, cheese sales, meat pack promotions, gift boxes or holiday mailing! Put in codes for customers with kids in 4-H or FFA, determining custom business from buyer at livestock shows and county fairs.
- Sales and productions reports, such as year to date species reports, dollars of sales for a particular time frame.
- Much, much more! See our website for related information! [www.meathandler.com](http://www.meathandler.com)  
Call current Meat Handler cutting instruction users and find out how easy it is to get started! (920) 693-3141
